

Statement of Chuck Hong, co-founder and CEO of Netlist CEO in Support of the Promoting and Respecting Economically Vital American Innovation Leadership (PREVAIL) Act and the Patent Eligibility Restoration Act (PERA)

April 30, 2025

As co-founder and CEO of Netlist, a small company that develops advanced memory technologies, I am writing to express our strong support for the Promoting and Respecting Economically Vital American Innovation Leadership (PREVAIL) Act and the Patent Eligibility Restoration Act (PERA). I applaud Senator Thom Tillis and Senator Chris Coons for reintroducing these important bills and urge the Senate to ensure their swift passage.

The Promoting and Respecting Economically Vital American Innovation Leadership (PREVAIL) Act provides a critical opportunity to restore predictability and balance to the U.S. patent system. By curbing serial abuse and preventing duplicative challenges, while still disincentivizing frivolous lawsuits by NPE's, this legislation will protect innovators like Netlist from being outspent and outmaneuvered by larger competitors seeking to avoid compensating smaller firms for their inventions. The PREVAIL Act's reforms are essential not only for fairness but for maintaining the integrity of our innovation ecosystem. We strongly support this legislation and urge Congress to pass the PREVAIL Act to protect America's inventors and ensure that innovation continues to thrive.

In addition to our support for the PREVAIL Act, Netlist also strongly endorses the Patent Eligibility Restoration Act (PERA). The current state of patent eligibility in the U.S. has become alarmingly uncertain, with vague standards making it difficult for inventors to determine whether their innovations qualify for patent protection. As a company that depends on the strength of its intellectual property, Netlist understands the frustration of navigating an unpredictable system that undermines investment in groundbreaking technologies and places U.S. firms at a competitive disadvantage on the global stage.

PERA addresses these issues by clearly defining what is and is not eligible for patenting, eliminating the arbitrary judicial exceptions that have confused and weakened patent eligibility. By providing a straightforward and predictable framework, PERA will ensure that truly novel and non-obvious inventions, like those developed by Netlist, can be patented without the risk of being dismissed as "abstract." This clarity is vital for fostering confidence among innovators and investors, empowering them to bring new technologies to market without fear of endless legal uncertainty.

Netlist urges Congress to pass both the PREVAIL Act and the Patent Eligibility Restoration Act. Together, these reforms will strengthen the U.S. patent system, protect inventors, and help ensure that America remains a global leader in innovation.
